(*ii*) *Re. due to food poisoning at St. Teresa Sanatorium, Bangalore*

SRI M. S. KRISHNAN (Malleswaram).—Madam, I call the attention of the Minister for Health to the reported death of two inpatients of St. Theresa Sanatorium, Bangalore due to food poisoning.

SRI H. SIDDAVEERAPPA(Minister for Health).—Madam, in response to the Calling Attention Notice of the hon. Member Sri M. S. Krishnan I wish to make the following statement.

St. Theresa Sanatorium, Rajajinagar, is a Missionary Institution. About 100 inmates including Patients, workers and their relatives in St. Theresa's Sanatorium are said to have taken food on 27th February 1975 at 7 p.m. The food was prepared in the Kitchen of the Sanatorium consisted of both vegetarian and non-vegitarian dishes. Out of the 100 persons who food, about 43 people are said to have developed signs of food poisoning stomach ache, fever, vomiting and diarrhoea. Symptoms started at about 1 to 4 hours, after consumption of food. One died before admission to the Hospital. Two cases were admitted to the Bowring and Lady Curzon Hospital. on 27th February 1975 One patient aged about 20 years died at 5a.m. on 1st March, 1975. 13 cases were admitted in the Emergency ward of Victoria Hospital on 28th February, 1975. Patients were in dehydrated state and prompt treatment was given by the Hospit authorities. However, one patient aged 60 years old died on 1st March 1975. Another batch of 27 patients were admitted on 1st March 1975 and all are said to be improving. In all, three have died one before admission to the hospital and two after admission. Five persons who had not eaten the food were also affected. Hence water used is also sent for chemical analysis along with food articles and viscera of the deceased. The Chemical Examiner's report is awaited. All except two have since been discharged.

SRI M. S. KRISHNAN—Since this is a very setions matter involving the death of three people due to food poisoning, will the Hon. Minister say when he will be able to get the report of the Chemical Analyser ?
